

COMPANY AND INSTRUCTORS

Quantum Leap Engineering, Inc. (QLE) is a systems integration group specializing in training and implementation of Six Sigma; Lean; Lean-Six Sigma; Design for Six Sigma (DFSS); Kaizen Events; Value Stream Mapping; Product & Process Cost Reduction; Supply Chain Programs and 5S programs. QLE provides public workshops and on-site training and consulting. Workshops in Statistical Methods, Statistical Process Control, Measurement Systems Analysis, Design of Experiments and others can be adapted and designed to meet your company's specific employee training requirements.

Kristen has over 20 years specializing in technology training and improving processes in organizations. Kristen has worked in the University setting and the private sector. Kristen uses numerous Lean mapping techniques to display the overall process -Manufacturing and Non-Manufacturing Processes. Kristen has a degree in Computer Science.

Sean, P.E., CSSBB, has over 25 years of operational, quality and engineering experience. He specializes in training and implementing Lean-Six Sigma Methodology and using Kaizens to accelerate the implementation of Lean-Six Sigma projects. Sean has a Master's degree in Engineering, is a graduate of the Business Management Program from MIT's Sloan School, is a registered

Professional Engineer (PE) and a Lean-Six Sigma Master Black Belt.

Tools of Lean Six Sigma

Frequently in Green Belt and Black Belt projects we need to use tools to gather information and track process to follow through with our projects. We have designed multiple classes that are hands on to utilize Microsoft Visio and Microsoft Excel to provide current state and future state diagrams, timelines, graphs and more. These tools will keep your projects on track and provide visual tools to determine status and areas affected.

"We learned a tremendous amount from your training. The Six Sigma projects were a great way to apply the tools and save the company money immediately-3 month payback."

Vice President of Operations

LEAN SIX SIGMA TOOLS COURSES

- I. **Process Mapping and Diagrams (1 Day Training) using Microsoft Visio**
 - Process Mapping
 - Utilizing Swimlanes
 - Fault Tree Diagrams
 - Cause & Effect "Fishbone" Diagrams
 - Integrate Excel into Visio
 - Workflow Diagrams

- II. **Data Analysis (1 Day Training) using Microsoft Excel**
 - Bringing Your Data Into Excel
 - Pivot Tables
 - Gantt Charts
 - Cause & Effect "Fishbone" Diagrams

**EACH COURSE COST IS
\$495**

**DISCOUNTED RATE FOR
BOTH COURSES
TWO COURSES \$750**
